

Productiv_IT with Microsoft Project

Two Day

This workshop introduces participants to some basic concepts of project management, and presents the range of features available in Microsoft Project to assist in the management of a project. Attendees will learn how to efficiently plan, manage and optimise resources to achieve their project goals.

Microsoft Project is a two day workshop designed for beginners. This course aims to show the learner how to use Microsoft Project to help manage a large range of projects from small to large scale. This workshop is valuable to anyone who is required to use Microsoft Project to develop a schedule of activities for a project.

The Microsoft Project workshop focuses on making the most of complex office applications. Our IT training specialists teach you good work practices in order to achieve greater personal productivity using Microsoft Project. We take popular business problems and workshop ways to solve them in a motivating, non threatening manner.

You'll learn lots, improve your skills and have loads of fun along the way.
