

Productiv_IT with PowerPoint 2007

Computer Lab Workshop

One Day

MS PowerPoint 2007 is a powerful multimedia tool that is rich in functionality; however few people know how to use these functions to create commanding and influential presentations. If you struggle with the content and appearance of your presentation slides, or you would like to discover greater functionality in PowerPoint then this workshop will help you.

Objective

This workshop will show you how to use the outlining, text, graphics, animation and slide show functions in MS PowerPoint 2007 that will improve your effectiveness when creating presentations. We teach you a systematic approach to PowerPoint using many shortcuts that will help you to save time during the building process of your presentation. Learn how to gain the attention of your audience and retain their interest through the application of visual style and audio cues. On completion of this workshop you will understand how and when to apply specific functions in PowerPoint 2007 to complement your presentation without detracting from your content.

Overview

Productiv_IT with PowerPoint 2007 is a one day workshop for frequent users of PowerPoint 2007. The workshop combines communication theory with modern technology to help you create punchy presentations with effective visual support. We focus on showing you the applications for PowerPoint 2007 that will assist you in your workplace. We look at common business environments where you are required to present and workshop ways to maximise your use of PowerPoint 2007 in these situations.

You will learn lots of shortcuts and tips to get MS PowerPoint 2007 working in ways that make you less stressed, more productive and more likely to achieve your goals.
