

Productiv_IT with Excel 2010

Computer Lab Workshop One Day

MS Excel is one of the most popular pieces of software ever written, however it is also the most misused. Most current training focuses on the main features of Excel – but how do we use it to do our work more productively? How can I use it to solve basic business issues and make my life easier?

Productiv_IT with Excel 2010 is a one day workshop designed for frequent users of Excel. It is suggested that participants have a working knowledge of Excel before attending this workshop.

This workshop focuses on making the most of complex office applications. Our IT training specialists teach you good work practices in order to achieve greater personal productivity using Microsoft Excel. We take popular business problems and workshop ways to solve them in a motivating, non threatening manner.

You'll learn lots of shortcuts and ways to get MS Excel working in a manner that makes you less stressed, more productive and more likely to achieve your goals.
